Since 1995, EPA has strived to make administrative changes to the Superfund program to make cleanups faster, fairer, and more efficient. Under the Superfund Administrative Reform on improving the management of oversight for settling parties, EPA has reaffirmed its commitment to conducting cost effective oversight while ensuring protective cleanups, and to sending oversight bills in a timely manner. The Agency also believes that maintaining an open dialogue about oversight expectations and the performance of settling parties improves the efficiency of response actions and minimizes the cost of oversight. EPA is willing to discuss the level of oversight for ongoing and upcoming work at this Site, and discuss any suggestions you may have to streamline these efforts. If you would like to discuss expectations for oversight, or if you have any questions regarding specific cost items in the enclosed cost summary, please contact the Project Manager for this site, Mr. Sean Sheldrake, at 206-553-1220.

Sincerely,

James V. Wood
